Dear Mr. Weisberg:

Following the symposium, Mr. Wrone has received several requests for materials related to the assassination. The University of Wisconsin-Stevens Point, Division of Educational Services and Innovative Programs, prepared a number of audio and video programs relative to this topic. We are now prepared to make these materials available to the public.

Would you please look over and sign both copies of the enclosed agreement and return them to this office. We will then return one copy to you for your files.

Thank you.

Sincerely,
